DFW Airport hires new Assistant VP of Air Service Development

DALLAS/FORT WORTH AIRPORT, TEXAS (February 6, 2001)—DFW International Airport, the world's third busiest airport, named Colin F. Wheeler Assistant Vice-President of Air Service Development today. Mr. Wheeler will be responsible for growth of the airport's domestic and international passenger and cargo air service.

Mr. Wheeler comes to the Airport Board from Trans World Airlines in St. Louis, Missouri. At TWA, he was the airline's Director of Market Planning. His duties included, developing strategies and tactics to maximize the airline's economic results. Mr. Wheeler also analyzed and recommended changes to TWA's domestic and international route structure and frequency levels.

Mr. Wheeler served in similar planning functions at Northwest Airlines and Continental Airlines.

"We are very excited to have someone like Colin as a key member of our team. His wealth of experience in airline planning and analysis is impressive. He will become a very important player in our international growth plans," said Joe Lopano, Executive Vice-President of Marketing for DFW International Airport.

Mr. Wheeler is a native of Portland, Oregon. He has a Bachelor of Science degree in Economics from Lewis and Clark College in Portland. He also holds a Master of Science degree in Transportation from the University of Washington in Seattle, Washington.

DFW International Airport is the world's third busiest airport, serving 60 million passengers a year with nonstop service to 129 domestic and 31 international destinations worldwide. For real-time flight information, parking availability or further details regarding the many services provided at Dallas/Fort Worth International Airport, log on to www.dfwairport.com.
